

Recommendations of the RS-IAP-ICSU International Workshop on Science & Technology Developments Relevant to the Biological and Toxin Weapons Convention

Tuesday 21 November 2006
Salle XXV, Palais des Nations, Geneva
Food & drink available: 13:00
Seminar starts: 13:30

This seminar will consist of a set of brief presentations from an expert panel to be followed by an open question and answer discussion. The focus of the seminar will be the report of the above international workshop and its recommendations for delegates at the Sixth Review Conference.

Chair:

Professor Rod Flower FRS

Chair of the Royal Society Standing Committee on the Scientific Aspects of International Security (SAIS)

Speakers:

- Dr Andrew Pitt, University of Glasgow, UK
- Professor Kathryn Nixdorff, Darmstadt University of Technology, Germany
- Professor Sergio Pastrana, Cuban Academy of Sciences, Cuba

This seminar is organised by the Royal Society and co-hosted by the InterAcademy Panel on International Issues and the International Council for Science
